- C# (C sharp)

PROJECTS

Portfolio [🔗](#)

My portfolio website is a platform where I, as a fresher, can showcase my talents and demonstrate my potential. It features a visually appealing homepage that captures attention, displays my best work, and highlights my unique skills and abilities. It also provides a way for potential employers or collaborators to get in touch with me. With a clean and modern design, my portfolio website presents me as a promising newcomer, eager to make my mark in the industry.

Virtual Salem

The aim of this project is to create the Salem city virtually, so that everyone can explore the city by using computing devices like smart phones, tablets, laptops and personal computers. Implemented a user-friendly interface that enables easy navigation and exploration of the virtual city, providing options to switch player to vehicle or vehicle to player.
